

# ABC of the Triple Cities

## OSHA Cranes & Derricks QUALIFIED RIGGER TRAINING

The course encompasses both formal lecture and hands-on exercises to assist the students in the proper selection and use of lifting devices, as well as the various types of hitches and configurations to prevent unintentional load displacement. Students will be given practical and tabletop exercises consisting of load calculations, component selection and proper component use to demonstrate their application of the information learned. According to the Bureau of Labor Statistics most recent data, 42% of the fatalities associated with crane use were a result of employees being struck by falling objects, primarily from the loads transported. This course is designed to discuss the use, care, maintenance, and inspection of various below-the-hook lifting devices, including alloy-chain slings, wire-rope slings, nylon and synthetic web slings, clevis, eyebolts, hooks, hoist rings and wedge sockets. Students who successfully complete the course will receive a course completion certificate. Course Time: 7 hours

**Date:** Monday, January 21, 2019 8:30 AM to 4:30 PM

**Cost:** Instruction is free of charge, made possible by a grant from The NYS DOL Occupational Safety & Health T & E Program. However, there is a \$17.00 per person fee for lunch, beverages, and course completion card.
