Petrographic Analysis of Concrete
Presenter: Christopher Kelson, PhD, PG

This presentation describes the utility of petrographic analysis to help determine why concrete fails (ASR, ACR, freeze/thaw, etc.) and to describe basic aspects of the concrete including water/cement ratio and hydration of the paste, aggregates, air, presence of deleterious materials, etc. (1 PDH)

Cost: **No Charge**

PRESENTER BIO

Chris Kelson, PhD, PG, Senior Geologist for ATL, specializes in geochemistry, petrography, petrology, economic geology, environmental geology, and mineralogy. He has 20+ years of both field and laboratory based experience within the mining industry, and 15+ years of university teaching and research experience.

WEBINAR SERIES

Atlantic Testing Laboratories, Limited (ATL) has provided continuing education seminars for PDH credit since 2006. The seminars are now approved for online presentation, and are intended to provide participants with an understanding of technical topics that will assist with their project needs. Attendees are eligible to receive NYS accredited PDH credits.
